THE HUMAN SKILLS MATRIX

24 durable skills that workers need to thrive in today's rapidly evolving organizations.

HOW WE MADE IT

41 Analyzed forty-one frameworks and reports from companies, non-profits, universities and governments.

Interviewed thought leaders within and beyond MIT and reviewed related literature.

44 Developed an initial set of forty-four skills.

Grouped them into four key domains.

Asked experts from across sectors to select and rank these skills by importance.

HOW TO USE IT

The HSX is released under a Creative Commons Attribution 4.0 license to help you use it in your own work.

IF YOU’RE AN EDUCATOR...
you can use HSX to examine your curriculum and pedagogy to ensure integration of these critical skills.

IF YOU’RE AN EMPLOYER...
you can use HSX to train and upskill workers, provide learning opportunities, and adapt job postings.

IF YOU’RE A WORKER...
you can use HSX to assess your individual capacity for these attributes and, and engage in learning to fill gaps and remain competitive.

IF YOU’RE A POLICYMAKER...
you can use HSX as a touchpoint for workforce planning, competitiveness analysis, and pathway initiatives.
